

# T2C

## Cold applied re-usable closure system

- Watertight in-line splice closure sealing aerial, underground and direct buried splices in unpressurised copper networks
- Versatile gel closure bringing new levels of installation convenience and application flexibility
- Easy re-entry and re-closure
- Cable configuration changes possible with a minimum of extra accessories
- Few sizes covering a wide application range up to 300 pairs
- Multiple branching possible up to six cables
- No special installation tools required
- Innovative cut-to-fix axial pull tapes providing mechanical cable retention
- Integrated mounting brackets for aerial installations
- Robust construction with high mechanical strength
- No restriction on shelf life

## Kit content

- Central part: top and bottom delivered as one part
- Gel profiles: 4 pcs
- O-ring seal: 2 pcs
- 4-out cable separator: 1 pc (large sizes only)
- Plugs for unused cable ports
- Axial pull tapes + tie wraps
- Gel sealing tape
- Cleaning tissue
- Bolts and washers
- Measuring tape
- Installation instruction

## Re-entry kit

A re-entry kit can be ordered separately to add or replace cables.

Reference: e.g. T2C-68-RE.

The re-entry kit includes gel sealing tapes, axial pull tapes, measuring tape and tie wraps.

## Installation steps

## Sizing/ordering information

Dimensions in mm

Description	Max. splice diam.	Max. sheath opening	Cable configurations	Cables IN max. diam.	Cables OUT max. diam.	Typical splice capacity
T2C 48-225-2/2	48	225	2 in - 2 out	2 x 15	2 x 15	30p/50p
T2C 68-400-2/4	68	400	2 in - 4 out	2 x 26	4 x 26	100p/200p
T2C 100-450-2/4	100	450	2 in - 4 out	2 x 40	4 x 40	300 p
